---

Hello, Ron:

Thank you for sending the Sampling and Analysis Plan. We will begin its review immediately.

The Certification language is incomplete. As explained during our October 27, 2009 meeting, in addition to the language in 40 CFR 761.61(a)(3)(i)(E), the Certification must include the language in 40 CFR 761.1 under *Certification*.

Please send me a copy of the analysis results for the samples collected last week, including those results for samples collected from building materials. I appreciate your cooperation. Thank you.

Sincerely,  
Carmen

Carmen attached is the sampling plan that provides the detail regarding the procedures to be used to collect confirmation soil samples from the proposed areas of excavation at the subject Site.

In addition, I have attached a certification page for the Self-Implementing Cleanup Notification and Certification letter that was transmitted to EPA on October 23, 2009. Can you please let me know if the certification contains the correct TSCA Certification language and would be acceptable?

Thanks again for your assistance and the timely review of the documents that you and your colleagues have provided us for this project.

Ron.
